

FCIA BOARD OF DIRECTORS PROFILE

Ben Urcavich
Performance Firestop, Inc.
704 Lombardi Ave., Green Bay, WI 54304
Phone: 920-471-2282, Email: ben@performance-firestop.com

Benjamin Urcavich is the Owner and President of Performance Firestop, Inc. an FM-4991 Approved Contractor. In 2005, Ben was a foreman and director within a successful Great Lakes commercial Insulation business. After seeing a need in the industry for expert knowledge and experience in the installation, documentation and maintenance of firestopping projects, Ben focused his energies on the firestop service offering. Within 2 years, Ben incorporated Performance Firestop, which has made it their mission to positively impact the construction industry throughout the state by providing top notch, expert firestopping.

Since then, Ben has guided Performance Firestop through the process of developing a quality manual in compliance with FM 4991 standards, and having completed the exam requirements, serves as the DRI of the Company.

Performance Firestop operates throughout the state of Wisconsin in commercial, industrial, and institutional markets.

Performance Firestop has been an FCIA member for 7 years. Ben has served on the Program and Accreditation committees for the last several years, has been a guest presenter at the 2016 FCIA Education and Committee Action Conference, and represented FCIA at the 2017 NFPA conference.

Ben has been married to Nina since 2001 and has 4 children. The family enjoys spending time together at their Northwoods cabin fishing and swimming in the lake and unplugging from their busy schedules. Ben enjoys playing golf and is obviously an avid Packer fan.
