Firestopping and Effective Compartmentation are critical elements for the safety of building occupants worldwide. Comprehensive understanding of the 'DIIM' of Firestopping, as well as thorough knowledge of Fire Walls, Fire- and Smoke-rated Barriers and Smoke Partitions, ensures correctly installed Firestop and Effective Compartmentation Systems, which results in greater reliability of the installed Firestop Systems for improved Fire and Life Safety.

Hear from the top industry experts about key Fire-Resistance Rated Construction and Maintenance Programs that, when installed correctly to the tested and listed System and manufacturer specifications by approved or qualified Firestop Contractors - and then maintained - keep people safe in all types of buildings.

Learn more about the 'DIIM' concept, the newest codes and standards updates, best practices and more at the....
