REQUEST FOR DRI RECERTIFICATION BY CONTINUING EDUCATION UNITS

DRI recertification may be accomplished through continuing education units or reexamination. To request recertification by CEU’s, DRI's must complete and submit the below DRI Recertification by Continuing Education Application form to UL Knowledge Solutions prior to the certification period expiration date. Required documentation and recertification application fees must be included with this application. DRI's meeting the CEU requirement during their certification period are issued a new DRI Certificate (if applicable). This certification is valid for a three (3) year period and is subject to the rules and conditions of the UL Qualified Firestop Contractor Program.

The DRI shall achieve at least six (6) continuing education units (CEU’s) for every three (3) years. One (1) CEU is equal to ten (10) contact hours of participation in organized industry-related continued education. CEU’s can also be earned by attending FCIA seminars or other industry-related seminars. A description of all of the options available to you is detailed below.

Achievement of CEU’s can be accomplished through educational programs offered by accredited colleges, universities, or other providers of adult education. All continuing education topics shall be relevant to the industry, such as life safety, loss prevention, building codes and other related topics and must be approved by the DRI’s management and accepted at the discretion of UL. The entire six (6) CEU requirement may be obtained through continuing education programs.

DRI’s may also receive CEU’s for conducting presentations or holding instructional sessions at industry-sponsored events. CEU’s are awarded only for the first time a body of knowledge is presented. Additional presentations using the same or similar content are not eligible for CEU’s. A maximum of two (2) CEU’s may be obtained through instruction.

DRI’s may be awarded CEU credit for a first time on-the-job work experience. The work experience must be industry related and add to the DRI’s body of knowledge of the Firestop industry. A maximum of one (1) CEU may be obtained through first time on-the-job work experience.

DRI’s may also receive CEU credit by submitting ten (10) industry-related questions (true/false or multiple-choice formats) for possible use on the UL Qualified Firestop Contractor Examination. Questions must include citations (page, paragraph, etc.,,) for the reference material from which the question was derived. A maximum of one (1) CEU may be obtained through examination question submittal.

A maximum of one (1) CEU may be obtained by maintaining active membership in an industry-related professional organization.
**Recertification Fees**:
Recertification fees must be included with the application submittal. Fees listed are subject to change.

Recertification Fee $200.00 USD

Recertification Results:
Results of our review of your application and a new DRI Certificate (if applicable) will be mailed to you within 30 calendar days after receipt of this application. Please indicate where you would like to receive this information.

- Personal Address
- Company Address
- Email Address: _____________________

Permission Statement:
The UL Qualified Firestop Contractor Program requires the qualified contractor to maintain a certified DRI on staff, pass annual quality inspections, and continue to meet other criteria as described in the program documents. As such, certain information regarding the DRI status must be shared with the contractor. Please indicate your authorization to release this information to the contractor contact listed on this application.

- I authorize release of DRI status information to the contractor listed.
- I DO NOT authorize release of this information. (Please note that failure to authorize release of DRI status information to the contractor will preclude contractor participation in the program.)

As part of the UL Qualified Firestop Contractor Program requirements, the DRI’s **first and last name only** and company information is posted to UL websites and will be visible to the general public. Please indicate your authorization to post your name to the UL websites upon successful certification as the company DRI:

- I authorize posting of my name to the UL websites.
- I DO NOT authorize use of my name.

Signature and Affirmation:
I hereby attest that all information provided on this application is correct and complete and that I am eligible to apply for DRI recertification. I grant permission to UL Knowledge Solutions to make inquiries as necessary to verify the information included in this application for recertification. By signing and submitting this application, I also agree to be bound by the policies and procedures set forth in the UL Qualified Firestop Contractor Program Requirements document.
