    – IFC Inspector Exam
Inspection Agency Accreditation

Special Inspection Agency - IAS AC 291 - Firestopping - Special Inspection Agency Accreditation for Firestop System Inspection Companies

FCIA has invested resources in the proper "DIM"™ - Design, Installation, Inspection and Maintenance Management - of Firestopping.

In addition to a FCIA Member Specialty Firestop Contractor or FM 4991 Approved and/or UL/ULC Qualified Contractor, Special Inspection of installed Firestop Systems by an AHJ "Approved" Special Inspection Agency Company that employs AHJ "Approved" Special Inspectors is needed to verify that the Contractor’s Quality Management System is working.

Learn more about what is required by the International Building Code, Chapter 17 for Firestop and other Special Inspection.
